Projects

(1) Clicks Studio :- [Visit website](#) [GitHub link](#)

The Clicks Studio website is a custom-built web application designed to highlight the client's portfolio and services. The website features a responsive design, API integrations, and a user-friendly interface.

- **Technologies involved** :- React.js, CSS, Node.js, Express.js, MongoDB
- **Features** :-
 - Showcased services and portfolio with a modern, responsive design.
 - Integrated contact form with email notifications.
 - Developed an admin panel for statistics and form management.
 - Ensured seamless usability across mobile and desktop platforms.

(2) CodeRoadMap :- [GitHub link](#)

CodeRoadMap offers a structured learning path for developers, with organized topics, progress tracking, notes, and personalized dashboards for a streamlined experience.

- **Technologies involved** :- HTML, CSS, JavaScript, Node.js, Express.js, MongoDB
- **Features** :-
 - Structured learning path with organized topics and subtopics.
 - Progress tracking for marking topics as completed.
 - Topic-specific note-taking.
 - Access to curated learning resources (articles, videos, etc.).
 - Login/logout authentication feature (**using JWT**)

Education

Manipal University Jaipur (Online)
